Aaron:

I just spoke with Ken Kanoff, he has informed me that the MW -A1, MW B-1 and MW – B-3 were all dry during that time frame. There wasn't anything to sample.

Carrie

Carrie:

Unless I'm mistaken, GW monitoring data for November, Field A, is missing from the attachments you sent me (data for Field B is provided in the attachment below). Typically, 3 monitoring wells for Field A (MW A-2, A-3 and A-4) are sampled, analyzed and reported. Any chance there is a November 2010 lab report for this sampling effort? Aaron

Aaron:

I do apologize for the delay in you receiving these reports. I've attached all the PineView labs we've received for the quarter. I do believe you'll find what you're looking for.

Let me know if you need anything further.

Katie:

I've not received groundwater monitoring data from Leachfields A and B for Pineview Estates since September. Samples should have been collected, analyzed, and submitted to EPA for each of the following months: October, November and December. Could you please check to see if samples were collected/analyzed and, somehow, not reported to EPA. If you can not verify that the samples were ever collected for these months, please inform me of this as soon as possible. Thank you, Aaron
